

## High Quality Microbiological Stains for Accuracy and Precision

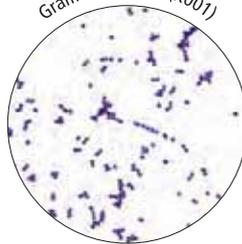

Methylene Blue (Aqueous) (S021)

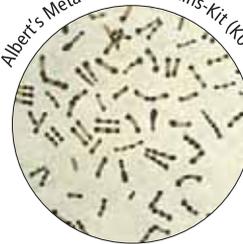

Lactophenol Cotton Blue (S016)

Gram Stains - Kit (K001)

Albert's Metachromatic Stains-Kit (K02)

Nigrosin Stain, 10% w/v (S025)

Stains play an important role in morphological evaluation of microorganisms which is an important tool used by pathologists to guide patient's treatment.

HiMedia offers vast array and valuable cost effective, ready- to- use stains and staining kits for Microbiological / Pathological laboratories, hospitals, research settings and educational institutes. These stains augment tissue morphology, demonstrate important cellular components, aid in the evaluation of diseases, and identifies pathogenic organisms.

### Microbiological Stain Kit

- Gram Stains Kit - K001
- Capsule Staining Kit - K004
- Malarial Parasite Kit - K011
- HiFluo Phenol Free Stain kit for Mycobacteria - K061
- Albert's Metachromatic Stains Kit - K002
- ZN Acid Fast Stains Kit - K005
- Fluorescent Stains Kit - K021
- HiCold Stain Kit - K062
- Neisser's Metachromatic Stains Kit - K003
- Schaeffer & Fulton's Spore Stains Kit - K006
- Malarial Parasite Kit - K049
- Modified Neisser's Metachromatic Stains Kit - K063
